## Overview

### Background

In Alberta, public library service is supported through shared funding between the provincial government and participating municipalities. The Public Library Services Branch of Alberta Municipal Affairs is the agency responsible for overseeing the Alberta *Libraries Act and Regulation* and for the development of public library service in the province.

Public library boards are required to submit an Annual Report to Alberta Municipal Affairs reporting statistics related to services and library programming. The data from each library's annual report is published in the Public Library Statistics. Financial details are taken from Statements of Receipts and Disbursements and financial reports filed by each library board.

### Availability and Access

In 2006, public library service was available to 98.2% of Albertans from 310 service points operated by 227 municipal and community library boards. Seven Regional Library Systems supported 247 library service points by delivering a range of services including: acquisitions, cataloguing and processing of library materials, rotating collections in various formats, technology support, network services, staff and trustee training, electronic subscription services, reference services and consultation on library service issues. Membership in a regional library system allows libraries to take advantage of economies of scale when purchasing goods and services and provides access to expertise in the areas of library service, management and governance. In 2006, over one million people (33% of the population) were served by libraries supported by a library system.

Across the province, online access to library catalogues continues to boost lending between libraries. Interlibrary Loan service has become a cornerstone of library service in Alberta with over 1.7 million transactions during the year, a 7.9% increase over 2005. Many libraries report that this service has had a huge impact on staff time, but recognize the tremendous benefit of improved access to resources for library users. In total, 43.2 million items were either borrowed directly, interlibrary loaned or used in-house at Alberta's public libraries.

Provision of online and electronic resources continued to be an important library service. Library users had access to 2,496 public library workstations available in Alberta's public libraries. Library websites and online catalogues were accessed remotely 23.2 million times. In recognition of the role libraries play in providing equitable access to electronic/online information resources, the Government of Alberta provides ongoing support for libraries' SuperNet connectivity by covering the monthly connection fees for public libraries.

### **Programs**

Programming continued to be a core service of public libraries across Alberta. Over one million Albertans took part in one of the 50,885 programs offered in public libraries in 2006. Library boards were asked to categorize their programs into one of the thirteen Service Responses outlined in *The New Planning for Results*, published by the Public Library Association. The largest percentage of the programs offered by Alberta's public libraries (33.1%) was in the area of Basic Literacy, with 29.9% in the area of Children's Literacy. Lifelong Learning was the next largest category for library programming (13.2%). Libraries continue to be a centre for literacy and lifelong learning in their communities.

### **Funding**

Public library service is a municipally-based public service. As such, the lion's share of funding for public libraries comes from local municipalities. In 2006, local support accounted for 69.7% of total library revenue. Provincial support made up 15.3% of total library revenue. Both local and provincial support increased in 2006: there was a 7% increase for local support and a 4.3% increase in provincial support (this does not include the one time Public Library Service Grant funding). These increases have been indispensable in helping libraries meet the needs of a growing provincial population in the midst of ever-escalating costs.

In addition to library grants, the province also provides support for the provincial public library network. This includes funding for The Alberta Library (TAL), the Alberta Public Library Electronic Network (APLEN), SuperNet connectivity and the provincial Resource Sharing contract. With the exception of TAL, these initiatives are 100% funded by the province, at a cost of 3.5 million dollars per year.

Alberta's public libraries continue to experience positive growth in usage and provision of quality service to the constituents of Alberta.

# Definition of Library Types

## **Library System**

Established by agreement between municipalities and/or school authorities as provided for under Section 13 of the Libraries Act, Ch.L-11. A system is supported by local taxes and is governed by a board consisting of one member appointed by each participant, and additional members appointed in accordance with the Libraries Regulation. There are seven library system boards with 21 sites/service points. (Edmonton and Calgary are excluded from systems.) The statistics related to the holdings and activities at these services points are listed under Library Systems – Output Measures. Statistics related to the activities undertaken by library systems as service providers to libraries are found in section entitled “Library System Boards.”

## **Municipal Library**

Established by passage of a bylaw under Section 3 of the Libraries Act, Ch.L-11. A municipal library is supported by municipal taxes and is governed by a board of not less than five and not more than ten members, all appointed by the council of the municipality. Not more than two members of council may be members of the Board. In 2006, there were 227 municipal library boards and 310 sites/service points, including 2 bookmobiles.

## **Community Library**

Established, governed, and supported by an association of persons, whether incorporated or not, and authorized by the Minister, under Section 25 of the Libraries Act, Ch.L-11, to provide library services to the public in a given area. It is governed by a board which is a corporation. There is one community library board remaining in the province, operating one service point.

# Notes

## **Information Sources**

Data for this publication comes from the *Annual Report and Survey of Public Libraries* distributed to all library boards in the province. Financial data is derived from financial reports and audits provided by each board.

## **Financial Data**

Because there is no standard reporting form and reports are not limited to operating costs, financial information may include debt charges, and transfers to and from other accounts. We have attempted to represent the information provided by each board as accurately as possible.

Direct payments are amounts reported by municipalities that either supplement or replace board expenditures in the areas noted. These arrangements are authorized by agreement between board and council.

## **Population per FTE staff**

Boards with less than one FTE have had this calculation based on the equivalent of one FTE (35 hours per week). This is due to the fact that many of these boards either: use volunteer staff, are open less than 35 hours per week, if they are in a school, have an arrangement with the school to use its staff.

## **Cardholders Per Capita**

Several of the small libraries serve people in surrounding rural areas with a population base greater than the village itself. In these libraries, the number of card holders may be greater than the actual population of the village

## **Customer Satisfaction**

One method Alberta public libraries have used to determine user satisfaction with library resources and services is through a survey completed by library users indicating their satisfaction on a scale from 1 to 5.

# Notes

## (Cont'd)

Calculations for averages are based upon those libraries reporting on any given question.

### **Electronic Performance Measures**

The Electronic Performance Measures reported are based on measures defined in the Electronic Performance Measures Implementation Guide. Public libraries in Alberta have been reporting on these measures since 2001. Note that not all library service points report on all Electronic Performance Measures. Calculations for averages are based upon those libraries reporting on any given question.

Where only data for *Questions Searched per Week* was provided, Public Library Services has calculated the percentage of electronic reference on behalf of the reporting library. Where *Questions Searched per Week* is not provided, *Electronic Reference as a Percentage of Total Reference* is based solely on numbers reported under the Reference area of the Annual Report and Survey of Public Libraries.

Libraries participating in the TRAC consortium share a joint online catalogue. As such, it is not possible to collect data on library catalogue visits for individual libraries. In the case of some other library system members, their website is part of a larger joint website where data on hits for individual libraries is also not available.

# Definitions of Terms

<b>All Materials</b>	Includes audio visual materials, toys, games, micro materials, etc.
<b>Appropriation</b>	Tax appropriation by municipality which appoints the library board and includes payments made directly by councils.
<b>Area</b>	Multiply by 10.76 to obtain square footage.
<b>Averages</b>	Average of all reporting libraries.
<b>Bookstock</b>	Includes paperbacks whether catalogued or not.
<b>Circulation per Hour</b>	Total circulation divided by sum of the weekly hours divided by 50 weeks.
<b>FTE</b>	Full-time equivalent in paid staff hours based on a minimum of a 35 hour week.
<b>Hours Open</b>	Number of hours per week including all branch hours where applicable.
<b>Operating Expenditure</b>	Excludes debenture payments.
<b>Totals</b>	Total (data) of all reporting libraries.
<b>Turnover</b>	Calculation of bookstock turnover (Bookstock Circulation divided by Total Bookstock)

# Definitions of Terms (cont'd)

## **Percentage of Time Workstations in Use**

The percentage of open hours wherein public workstations are used. Calculated as total hours workstations are in use divided by the total hours workstations are available. Generally based on a 1 week sample.

## **Questions Searched per Week – Sites/Sources Used per Week**

Numbers are based on patron self reporting.
